

Candiwall Technical Data Sheet

Candiwall Brick Slips

Grizdale Grey

All Candiwall brick slips are made from natural clays without using pigments or additives. High performance clays are used to create the best possible finish. Fired at temperatures of 1100°C durability is assured and of course, you can use any of the Candiwall range of slips for internal or external applications.

Properties:

- High compressive strength
- Low Water absorption
- High dimensional stability
- Acid resistant
- 100% recyclable

Certification:

- Certified to European Standard EN14411

Corner Pistol Slips All Styles	220/105x14x50mm	0.54Kgs	8 Kgs	17 corners per lin mtr

GRIZDALE GREY

Textured surface

This striking textured faced Mid-Grey Slip is so well suited for contemporary architecture that it is fast becoming the favoured choice for many architects. The texture of the Grizdale is such that it accentuates the light and shade that is so enviable in exterior locations. When pointed with a contrasting mortar, the facade can certainly give you that Wow factor.

Sizes available:-

220mm x 14mm x 65mm = 60 slips per m² and 14 corner slips per lin mtr

220mm x 14mm x 50mm = 76 slips per m² and 17 corner slips per lin mtr

Samples available on request.
